Renee Stratton, Production Manager

With over 28 years’ experience in the economic development field, Renee has participated in the preparation/production of enterprise/empowerment zone applications, CDBG technical assistance and planning grant applications, researched and prepared website content, produced local, state and federal government reports, and economic development and demographic studies. She has participated in the development, implementation, deployment, and analysis of: various business, organization, customer, and workforce surveys; land/building inventories; and performed demographic/economic/community/occupational research. She also administers an online workspace for maintaining documents and project communications. In March 2005, Renee was awarded CALED’s Linda Sayles Support Team Award of Excellence.

Experience: 28 years in economic and community development, 23 years with Chabin, 6 years with economic development corporations

Expertise: Economic, demographic, industry, real estate, occupational & community research; website data collection, site & building data collection; community comparisons; various surveys; workspace administration, production of various reports & documents

Education: Business Administration, Feather River College
